## St Catherine's Hospice – So no one has to face death and loss alone

St Catherine's Hospice is a local charity with a big ambition: to help everyone face death informed, supported and pain free. Every year, thanks to the generosity of people like you in our local community, we're able to provide free hospice care to around 2,100 people and their family and friends.

Our skilled teams are on hand to support people living with terminal illness in their homes, at our Day Hospice and on our wards. It could be a bath, a favourite meal, or helping someone manage their pain. For us, hospice care is whatever our patients and those closest to them need it to be. It's different for everyone, and we empower our patients to make their own decisions whenever they can.

We also give emotional, spiritual and welfare support to anyone affected by death and bereavement. Our care is only possible thanks to the generosity of our local community who donate and volunteer with us.

But there is still more to do. Right now we're only able to care for one in three people that need us. With your support, we can help more local people with a life-limiting illness. We can help them manage their symptoms, offer emotional support, and provide expert care when and where it's needed most.

**We're born surrounded by love, our deaths should be the same. That's what we want for our local community.**

Let's have a Heart to Heart...

St Catherine's Hospice is a local charity at the heart of the community. We help families do the things they love for as long as they can. Art often plays a really important part in the physical and emotional care we provide.

HeART to Heart gives our community the chance to enjoy a trail of over 25 individually designed heart sculptures across the areas where we care for people. Each heart is unique and created by a local artist. Head out on the trail and see if you can find them all!

Young Hearts

Alongside our main HeART to Heart trail you can discover our Young HeARTs. These mini hearts were hand-made to create a beautiful wire-framed structure that encouraged children's creative freedom.

They were designed by local primary schools across Surrey and Sussex and are displayed in community spaces such as libraries and museums.

See how many Young HeARTs you can track down!
