Aims and objectives

Please read the guidance document *Statement of purpose: Guidance for providers*.

Aims and objectives

What are your aims and objectives in providing the regulated activities and locations shown in part 3 of this statement of purpose

St Catherine's Hospice is a charity dedicated to providing specialised end-of-life care to local people, their families and carers.

Our vision:

A world where everyone can face death informed, supported and pain free.

Our mission:

Provide outstanding care and support to more people, underpinned by education and research with a commitment to working in partnership.

The aims and objectives of our current (2019-2025) strategy are:

1. Build on our current level of expertise and develop services to take full advantage of the additional space at our new hospice.
2. Increase provision to 24 beds and provide respite and/or stepdown care.
3. Align our community service with NHS community provision and work alongside health and social care colleagues to provide end-of-life care.
4. Work with others to meet the needs of people with frailty and multiple conditions, particularly those in care homes, as they approach end-of-life.
5. Enhance wellbeing services so more people facing end-of-life can have as good a quality of life as possible, for the time they have remaining.
6. Improve the confidence and resilience of carers to help them provide the best possible care and support them throughout bereavement.

The strategy was refreshed in 2023 with the following agreed priorities:

Provide a good death for everyone we care for.

Everyone needing end of life care, across all our communities, should be able to experience a good quality of care, whether they be at home, in a care home, or in a hospice bed.

Focus on wellbeing, including bereavement.

Wellbeing will be integral to St Catherine's. We will treat people as individuals, tailor their care, support those close to them and treat them as a whole person.

Develop models of care.

Increase and improve our reach through integration with the health and care system, collaboration with hospices and work alongside health and social care colleagues to provide end of life care.
